AN ANNOUNCEMENT

Europe Limousine Service is proud
to introduce *ELS Ground* — our next
chapter.

After more than three decades as Europe Limousine Service, we are evolving our identity to better reflect who we are today: a global ground transportation partner, trusted by the world's leading organizations to move what matters most — their people.

Our name changes. Our commitment to you does not.

01

SAME OWNERSHIP

ELSGround remains a privately held, family-operated company. Our team, the same people you know and trust continues to deliver the industry's finest customer service experience, with the proactive communication and personal attention you've come to expect.

02

GLOBAL NETWORK INTACT

Your existing account relationships, and worldwide coverage remain fully in place. Every reservation, every detail, every standard you rely on continues without interruption.

03

A SHARPER IDENTITY

ELSGround reflects the breadth of what we do – premium ground transportation across our founding city of New York, the United States, and the globe. The new name carries 30+ years of earned trust into a future built on the same foundation.

We have always been more than a car service. ELS Ground is simply the name that tells the full story — of a company that has spent decades putting our clients first, at every mile, in every city, on every continent.

OUR STORY

30+ Years of Trust, Redefined for What Comes Next

Founded in 1992 in the New York Tri-State Area, Europe Limousine Service built its reputation one ride at a time — earning the trust of many of the world's most prestigious firms, C-suite executives, and discerning travelers who accept nothing but the best.

The world we serve has grown. So have we. ELS Ground is our commitment to meet you wherever you are — with the same white-glove standard, the same professional chauffeurs, and the same personal accountability that has defined us from the beginning.
